Dr Christina Teng

Dr Christina Teng

Qualifications: BMed, MMed (Clin Epi), FRACP

Dr Teng is an experienced Oncologist who completed her internship locally at Gosford and Wyong Public Hospitals, followed by specialist oncology training at The Kinghorn Cancer Centre, Liverpool, Bankstown, and Concord Hospitals.

An award-winning cancer researcher with an interest in cancer survivorship, Dr Teng is completing her PhD studies on the topic of chemotherapy-induced peripheral neuropathy at the University of Sydney. She has published peer-reviewed research on neuropathy symptoms in cancer survivors as well as novel ways of assessment and treatment of chemotherapy-induced peripheral neuropathy.

Dr Teng is a member of the Australasian Gastro-Intestinal Trials Group (AGITG), and is actively involved in clinical trial research activities, and advocacy for improving treatment and quality of life of patients with gastrointestinal cancers.

She also holds professional memberships with Australia New Zealand Gynaecology Oncology Group (ANZGOG), and the Medical Oncology Group of Australia (MOGA).

Dr Teng also practices at the Scientia Clinical Research early phase clinical trials unit in Randwick, contributing to the development of new cancer medicines and precision cancer care. She is passionate about allowing every patient the opportunity to benefit from or contribute to research.

Dr Teng specialises in:

- Gastrointestinal cancer
- Breast cancer
- Lung cancer
- Gynaecological cancer
- Prostate cancer
- Cancer of unknown primary
- Cancer survivorship

Cancer treatment is always improving. Dr Teng keeps up to date with the latest advances in diagnosis and management in cancer care, including involvement with a multidisciplinary team.
