

Dr Ken
Wong

Dr Ken Wong MBBS (Hons 1) FRACS Dr Ken Wong is a highly experienced bariatric surgeon based at Gosford Private Hospital and Brisbane Waters Private Hospital.

His specific focus is gastrointestinal surgery using keyhole surgical techniques which he favours due to the minimally invasive nature of the surgery and the shortened recovery times.

Dr Wong has trained extensively in keyhole surgery techniques both in Australia and overseas. In 1998, he graduated with First Class Honours from the University of Sydney Medical School.

For the next decade, he worked and trained with eminent Australian and international surgeons and Bariatric surgeons in weight loss surgery, gastric banding, gastro-oesophageal surgery, endoscopy and endocrine surgery. The focus was on minimally invasive and keyhole techniques.

He enjoys seeing patients lose weight permanently from weight loss surgery after many years of failed diets and a constant cycle of weight loss followed by weight gain.

He obtained his specialist qualification in surgery (Fellowship of the Royal Australasian College of Surgeons) in 2006.

Dr Wong has performed over 1000 keyhole abdominal surgeries and has been involved in hundreds of keyhole weight loss surgeries including lap bands, gastric banding, sleeve gastrectomy, gastric bypass and gastric band removals.

Dr Wong completed the Central Coast's first ever elective laparoscopic gastric bypass surgery at Gosford Private Hospital in 2016.
