

Cardiac Catheterisation Lab Registered Nurses Full-time/Permanent part-time

Gosford Private Hospital is seeking experienced staff with Cath lab and or cardiac or critical care experience who are interested in developing their career in the Angiography Unit.

For more than 35 years Gosford Private Hospital has played a pivotal role in providing quality care to the Central Coast community as the largest and most comprehensive private hospital in the region.

Gosford Private Hospital (GPH) is a 129 inpatient bed facility which specialises in Orthopaedic, Neurological, Surgical, Obstetric, Paediatric, Cardiac, Medical, Oncology, Endoscopy and Rehabilitation services. This includes our specialised Cardiac services, which are supported by two dedicated catheter laboratories, six recovery bays, six-bed Coronary Care Unit (CCU) and eight-bed Intensive Care Unit (ICU).

About the role:

There are 11 Cardiologists and 3 Vascular Surgeons performing diagnostic and interventional procedures, device implantations and electrophysiology studies in the Gosford Heart Centre, offering successful candidates a diverse and challenging clinical experience.

Essential criteria:

- Current registration with AHPRA
- Minimum 2 years' experience post registration
- Critical Care/ Cardiac qualification or willingness to obtain
- Commitment to patient-centred care

Applications close: Friday 28 May 2021
